

## Student Council 2018-19

**Welcome to the Student Council page.**

It is the Student Council's aim to act on behalf of all the students in the school, creating a better, more student-friendly school. Students are elected from each year group and represent the interests and opinions of the students.

We are always open to suggestions however big or small. We have a suggestion box that students can input their ideas and it is checked weekly.

Anyone is more than welcome to come to their Student Council with their ideas at any time. We are always willing to help anyone whenever it is needed.

Many thanks to the teachers who help and support the Student Council in their work.

**There are currently 15 members on the student council.**
